Free NHS funding guide for Stroud residents

Hi there,

I work for CareHomeGuide.uk, a free independent directory of CQC rated care homes in England.

We have put together a page for Stroud residents with two things on it. A list of every care home in the area with its CQC rating and contact details, and a free copy of our NHS Continuing Healthcare guide, which normally costs £37.

https://www.carehomeguide.uk/districts/stroud

Continuing Healthcare is the bit most families miss. If someone qualifies, the NHS covers their care home fees in full, with no means test. Very few people know it exists, and the ones who do often give up partway through the assessment.

There is nothing to buy and no catch. We make our money from care homes, not families.

If you think residents would find it useful, a link from your parish council website would be very welcome. There is also a graphic on the page you are welcome to use in a newsletter.
